Developers Recommendations / Notes etc

1.
Maybe more than only one secretary to divide the work... I think this would be good!
2.
Is there an existing pricelist yet? Let me know as soon as possible. If you still haven't any pricelist I think it's time to fix it. This is a critical part and we should talk about it!
3.
How many berth's exists today. My recommendation is to let every berth has an assigned nr (location). I think this is really important - this makes it easier and possible to produce the pricelist and getting the automated booking working properly.
